

# BUILDING our COLLECTIVE BRAIN

# SPECIAL ADDRESS: WHAT THE COLLECTIVE BRAIN TEACHES US ABOUT ECONOMIC POLICY

Nathan Nunn

$$\frac{\dot{A}}{A} = \gamma \theta L$$

THE MODEL of KNOWLEDGE GROWTH

INEQUALITY has ROBBED us of MANY INVENTORS

The SOCIO-ECONOMICS of AN INDIVIDUAL SEEMS to CO-RELATE with them BECOMING an INVENTOR!

! THE INCLUSIVENESS of a POPULATION

THE INTERCONNECTEDNESS of a POPULATION

EDUCATION ACCOUNTS for SOME of it. BUT a BIGGER FACTOR SEEMS to be... STEREOTYPE

- RACE
- WEALTH
- GENDER

THE LEVEL of TRUST of a NATION is CO-RELATED to the WEALTH of a NATION

CEO'S of FAMILY NAMES THAT HAVE BEEN HISTORICALLY TRUSTING RUN COMPANIES MORE LIKELY TO INNOVATE!

STATES THAT ALLOW MORE IMMIGRATION TEND TO INNOVATE MORE!

IN AMERICA, WHERE IT RAINS on the 4TH of JULY...

...PEOPLE DON'T TEND to ATTEND the PARADES...

... AND CONSEQUENTLY DO NOT VOTE AS MUCH (OR VOTE REPUBLICAN)

WHY AREN'T ALL NATIONS TRUSTING THEN? IT SEEMS THERE ARE POINTS IN HISTORY WHERE A PEOPLE'S TRUST IS ERASED!
